

DATA SHEET

LIQUID FERTILISERS

30N Urea / Ammonium Nitrate Solution

kg N / ha	Litres / Ha
10	26
20	51
30	77
40	103
50	128
60	154
70	179
80	205
90	231
100	256
110	282
120	308
130	333
140	359
150	385
160	410
170	436
180	461
190	487
200	513
210	538
220	564
Litres/ Tonne	769
Specific Gravity (at 20°C)	1.300
kg N / tonne	300
kg N / litre	0.390
litres / kg N	2.56
The specific gravity can vary slightly, depending on ambient temperature. These figures are a guide only and should be adjusted to suit local conditions.	
Figures are rounded to the nearest whole number.	
Apply liquid nitrogen with BFS dribble bars.	
Do not apply in windy weather.	Version 1.2
